TOPICS DISCUSSED

In particular, the Conference Committee is calling for papers relating to (but not limited to):

1. **The Polish banking law** after implementation of the post-crisis EU directives
2. **Compliance** - its meaning to financial stability of institutions and customers
3. **Financial regulations after Brexit. EBA in Warsaw?**
4. The doctrine and practice of the macroprudential regulation
5. **Resolution** - recovery or liquidation of the bank?
6. Financial systems and institutions in the face of misconduct (*misconduct risk, misuse risk*)
7. **Financial stability**- an element of the public finance sector (an element of the financial market)
8. **Legislative process of financial regulations**
9. Legal conditions for new **technologies of financial services** (*fintech, bitcoin, block chains*)
10. Is EU/Poland ready for **securitization**?
11. Current changes in the architecture of financial supervision

Dear authors,

On behalf of the Summit Organizers and the Conference Committee, I am honoured to invite you to the 5th Financial Regulations Summit and to submit your own paper in response to the call for papers.

Please send your original monographs, results of empirical studies, comparative analyses, case studies, comments (votes), etc. Papers may be presented and discussed during the conference at the Summit. The number of papers is limited by the duration of the conference, therefore submitted papers will be reviewed by the Conference Committee, which consists of researchers, representatives of financial market players, regulators and organizers. This year, the best papers will be reviewed and published in another volume of monographs on politics and regulatory practices on financial markets.

I look forward to reading your papers!

**Wojciech Rogowski, PhD (Allerhand Institute, Warsaw School of Economics, National Bank of Poland)
Secretary of the Conference**
